Basic Manual

A5514SA
by SANYO

au by KDDI

Welcome

Thank you very much for purchasing the A5514SA.
Before using, read the A5514SA "Basic Manual (this PDF manual)" to ensure correct use of your A5514SA. After you have finished reading, store this PDF manual and the printed manuals in a safe place so that you can retrieve them whenever you need.
Contact au shop or au Customer Service Center if you lose either of these manuals.

Printed Manuals for the A5514SA

The A5514SA comes with Basic Manual and Manual.

Basic Manual

Equivalent to this English PDF manual.

Manual

English version is not available.

The following manuals are also available from au home page:

- The downloadable "Basic Manual" and "Manual"
  (http://au-pro.kddi.com/phone/torisetu/index.html)
- The au online manual (Japanese) for searching by keyword
  (http://www.au.kddi.com/manual/index.html)

The au online manual (Japanese) is also available from the EZ web:

<How to access>

EZ Top Menu → 料金・申込・インフォ (Charges, application and information)
→ auオンラインマニュアル (au online manual)

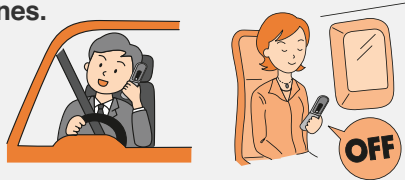
Have access to the au online manual by reading the bar code (QR code).

Note that the shape and typeface used in the screens of this manual may differ from those used in the actual screens, and some screens are partly omitted.

Cellphone Etiquette

Cellphones emit weak radio waves at all times even if you just turn the power on. Enjoy and safely use your cellphone without forgetting those around you.

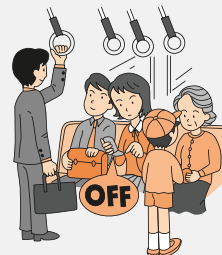
Some places forbid the use of cellphones.

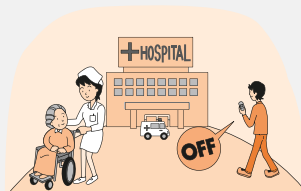
- Using cellphones while driving is dangerous and forbidden by law.
- Using cellphones in airplanes is forbidden by law. Be sure to turn your cellphone OFF.


Consider where to use your cellphone and be careful of how loudly you talk.

- Do not make calls from cinemas, theaters, museums, libraries, and other similar places. Turn your cellphone off or set it to the silent mode to prevent others around you from being inconvenienced by ring tones.
- Use your cellphone in places where you do not prevent others from passing through.
- Move to areas where you do not cause others inconvenience on trains or in hotel lobbies.
- Take care not to talk too loudly during conversations.
- Get other people's permission before you start taking photos with the cellphone's camera.

Radio waves from cellphones may adversely influence medical apparatus and equipment.

- Some people close to you in busy places such as crowded trains may be using pacemakers. Turn your cellphone off in such places.
- Abide by the instructions of hospitals and other medical institutions where it is forbidden to use or carry cellphones.


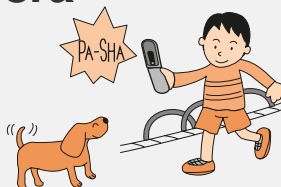


What You Can Do with the A5514SA

Mail

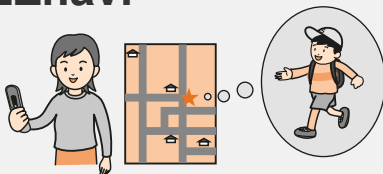
You can send mail to other cellphones or personal computers.

Page 44

Camera


You can take photos or movies and send them easily by E-mail.

Page 56

EZnavi


You can access position information using the functions such as EZ Navi Walk, Position Search, and Area Message.

Page 70

EZweb

You can download Chaku-Uta®, wallpaper and others.

Page 62

Use Overseas

You can use the A5514SA overseas with global functions.

Page 34

EZ • FM
You can use the A5514SA as FM radio.

Page 74

Silent Mode and In-Phone Ans Machn

Silent Mode

You can use the silent mode to turn incoming rings and other tones off to prevent others from being inconvenienced.
Press クリア/マナー for more than one second in the standby screen.

Page 31

In-Phone Ans Machn

You can play answering message and record caller's message when you cannot answer a call.

Press メモ for more than one second in the standby screen.

Page 32

Check the Power, Radio Waves, and Battery!

Usually, keep the "power" ON.

Keep the power on to make or answer calls.
Press Power for more than one second.

Page 13

You cannot talk on the phone if you are not receiving "radio waves".

It may be difficult to receive radio waves in some places even in service areas.
[antenna icon] indicates the reception state.

Page 13

Pay attention to the remaining "battery" power.

You cannot use the cellphone when the battery goes off. Charge the battery soon when the remaining power is too low.
[battery icon] indicates the remaining battery power.

Page 13

Do Not Use the Cellphone While Driving

Using cellphone while driving is subject to penalties.

Holding a cellphone in a hand and use it for a call or gazing at a screen to see mails, etc. while driving is subject to penalties.
(November 1, 2004 Implementation of the Revised Road Traffic Law)

Holding a cellphone in a hand and use it for a call

Gazing at a screen to see mails, etc.

Use drive mode or turn the power off while driving.

Drive Mode

When the drive mode is set, the caller will hear the answering message "Now driving. I can't answer the phone right now... (Japanese)", and can leave a message in the In-Phone Ans Machn.

From the standby screen, press , use to select "Car", and press [Select].

Standby screen
Watch Out for Junk Mail and One-Ring Calls!

If you receive junk mail…

● Mail Filter

Using the mail filter function, you can reject mails sent from specific addresses or mails that contain “未承諾広告※ (Unsolicited Ad)” in the title, which is the biggest source of junk mail.

The following mail functions are available for preventing arrival of junk mail:

- “未承諾広告フィルター” : Rejects Unsolicited Ad mails.
- “アドレスフィルター”: Rejects mails sent from specific addresses.

Page 51

● Change E-mail Address

You can prevent arrival of junk mail by changing E-mail address.

Page 22

If you receive a call from unknown number…

It may be a “One-Ring Call” which intends to trick you into calling back and accessing unwanted pay programs. Be careful to a call from unknown number.

● Icon for One-Ring Calls

The icon ( ) is displayed in the log of One-Ring Call and lets you know the caller hung up within 3 seconds.

Disaster Message Board Service

About Disaster Message Board

When a big scale disaster occurs, you can register your safety information through EZweb. The registered safety information can be confirmed from anywhere in Japan through EZweb or Internet.

Registering safety information

- When a big scale disaster occurs, you can register your safety information such as your condition and comments from au cellphone to the “災害用伝言板 (Disaster Message Board)” created on the EZweb.
- After registering your safety information, you can notify by E-mail your family or acquaintances you have previously specified that you registered your safety information on the “災害用伝言板 (Disaster Message Board)”.

Confirming safety information

- You can confirm the safety information of the person you want to know about by entering his/her phone number from EZweb or Internet.
  * When you confirm the safety information from other carriers□cellphone (except TU-KA), PHS or personal computer, access the following URL.

How to access	→ Top Menu → 災害用伝言板 (Disaster Message Board)
	http://dengon.ezweb.ne.jp/

* The maximum preservation period of the registered information is 72 hours.
* The maximum available number of each registration is 10.
* The demonstration of this service can be referred to anytime by accessing
  EZ Top Menu → 料金・申込・インフォ (Charges, application and information)
  → 災害用伝言板(デモ版) (The demonstration of Disaster Message Board)
* You can use English version by selecting “English”.

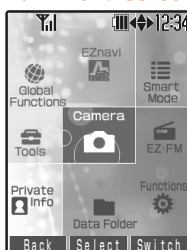
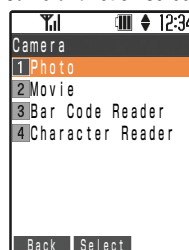
About Menu

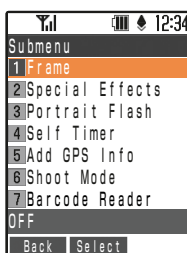
About Main Menu

Pressing in the standby screen launches the Main Menu. Each function can be accessed by using to select an image and pressing .
<Example> Accessing Camera from Main Menu




About Submenu

When "Submenu" is displayed at the bottom of the screen during each operation, you can access related functions or information by pressing the key that corresponds to Submenu.

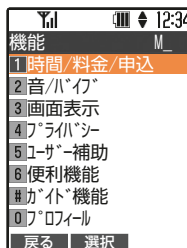
<Example> Displaying Photo's Submenu


Setting the Language to English

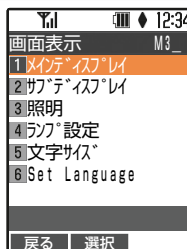
1

Press ◉ in the standby screen.

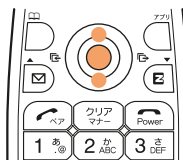
2

Use ✣ to select "機能" and press ◉ [選択].


3

Use ↕ to select "画面表示" and press ◉ [選択].


4

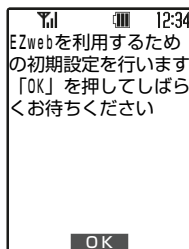
Use ↕ to select "Set Language" and press ◉ [選択].
5 Use ◎ to select “English” and press ◉[選択].


Information

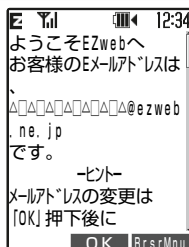
- You can set the language to Japanese by pressing in turn ◉ 3 6 1 from the standby screen.

Initial Setting for E-mail and EZweb

To use E-mail and EZweb services, you need to subscribe to the EZweb service. If you did not subscribe it when you purchased your phone, please contact au Customer Service Center or au shop for further information. Make sure that you do the initial setting before using E-mail and Ezweb services for the first time. The initial setting automatically determines your E-mail address. To change it as you like, see “Changing Your E-mail Address” (p.22).

Press in the standby screen.


Press [OK].

Your E-mail address is determined automatically by the initial setting.


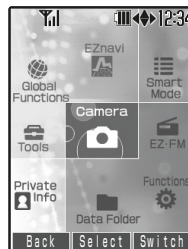
Press [OK].

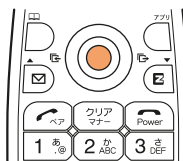
The initial setting is completed and E-mail Menu appears.

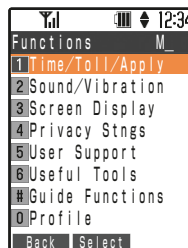
Information

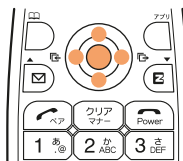
- Pressing or in the standby screen also allows you to do the initial setting.

Confirming Your Cellphone Number/E-mail Address

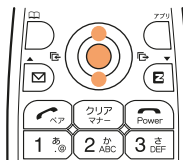
1 Press ◉ in the standby screen.




2 Use ✥ to select "Functions" and press ◉ [Select].




3 Use ◎ to select "Profile" and press ◉ [Select].

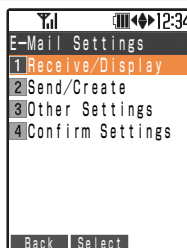
Your cellphone number and E-mail address are displayed.


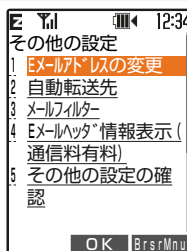
Information

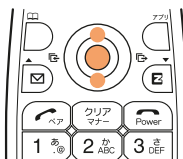
- You can also display them from the standby screen by pressing ◉, and then 0.

Changing Your E-mail Address

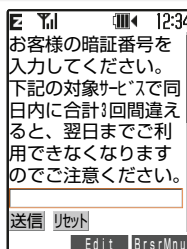
1 **Press ✉ in the standby screen.**

2 **Use ◎ to select "E-Mail Settings" and press ◉ [Select].**


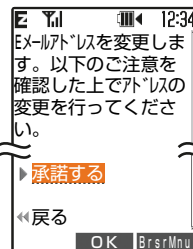
3 **Use ◎ to select "Other Settings" and press ◉ [Select].**


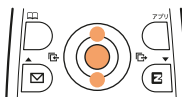


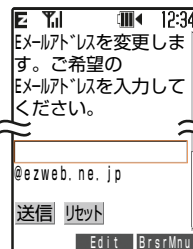
4 **Use ◎ to select "Eメールアドレスの変更 (Change E-mail Address)" and press ◉ [OK].**

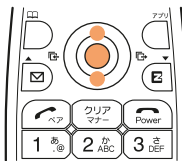
Contents/Before Use


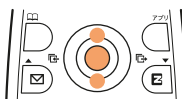
5 Enter your lock code, press ◉ [Set], use ◌ to select 送信 (Send), and press ◉ [OK].

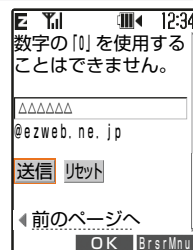
- Lock code is the 4-digit number you wrote in the application form when purchasing.
- No setting operation is allowed until the next day if you enter the incorrect lock code 3 times in a day.




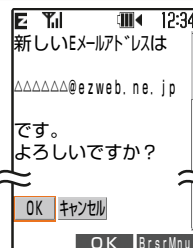
6 Use ◌ to select "承諾する(Agree)" and press ◉ [OK].


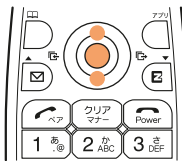


7 Use ◌ to select the input field, enter an E-mail address, and press ◉ [Set].


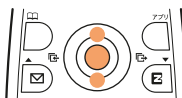
- See "Inputting English Characters" (p.93) about the characters available for E-mail address and the way of entering E-mail address.


8 Use ◌ to select 送信 (Send) and press ◉ [OK].

- When the E-mail address you enter is already being used, enter a different one.




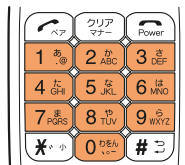
9 Use ◌ to select OK and press ◉ [OK].

Your E-mail address is changed.


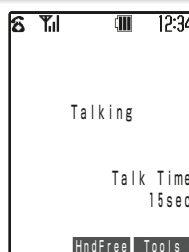
Phone Call

Making a Call

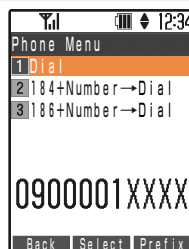
1 **From the standby screen, press 0 - 9 to enter a phone number.**

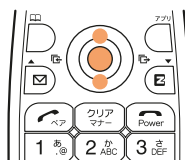
- To call a regular phone, enter a phone number starting with the area code.


Press **.**

To end the call, press Power.


To Select the Way of Dialing

1 **After entering a phone number, press [Dial], use to select the way of dialing, and press [Select].**




- The following are details of each menu:

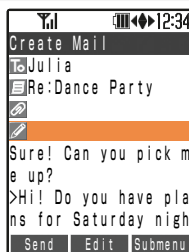
After the step 3 on page 48, press [Reply].

Create Mail screen is displayed. The recipient is entered and the subject and body text of the received mail is quoted.

- Subject is prefixed with "Re:".
- Subject can be edited.

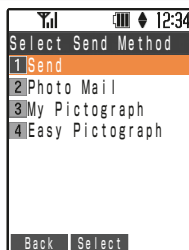
2

Use to select , press [Edit], enter a body text, and press [Set].


3

Press [Send].

Select Send Method screen is displayed.

4


Use to select "Send" and press [Select].

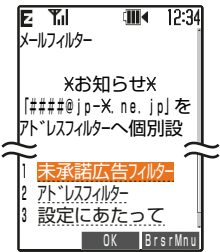
Created mail is sent.
Blocking Junk Mail

Using E-mail, you may receive mails from unknown persons, or unwanted solicitation mails which are called “Junk Mail”.The following ways are available for preventing arrival of junk mail.

Mail Filter

Mail filter main screen

Press in the standby screen.

- Select “E-Mail Settings” and press [Select]
- Select “Other Settings” and press [Select]
- Select “ﾒｰﾙﾌｨﾙﾀｰ(Mail filter)” and press [OK]
- Enter your lock code and press [Set]
- Select 送信 (Send) and press [OK]


Mail filter main screen is displayed.

*Lock code is the 4-digit number you wrote in the application form when purchasing.

The mail filters are “未承諾広告フィルター (Unsolicited Ad Mail Filter)” and “アドレスフィルター (Address Filter)”.

- **“未承諾広告フィルター (Unsolicited Ad Mail Filter)”**

  Rejects mails that contain “未承諾広告※ (Unsolicited Ad)” in the title.

- **“アドレスフィルター(Address Filter)”**

全受信	Receives all E-mails.
指定受信設定	Receives only the E-mails whose domains are specified in “一括指定” or whose domains or addresses are specified in “個別指定”.
指定拒否設定	Rejects E-mails whose domains or addresses are speficied.
なりすまし規制	By setting “規制する(Regulate)”, rejects E-mails sent from a personal computer with cellphone or PHS E-mail address.

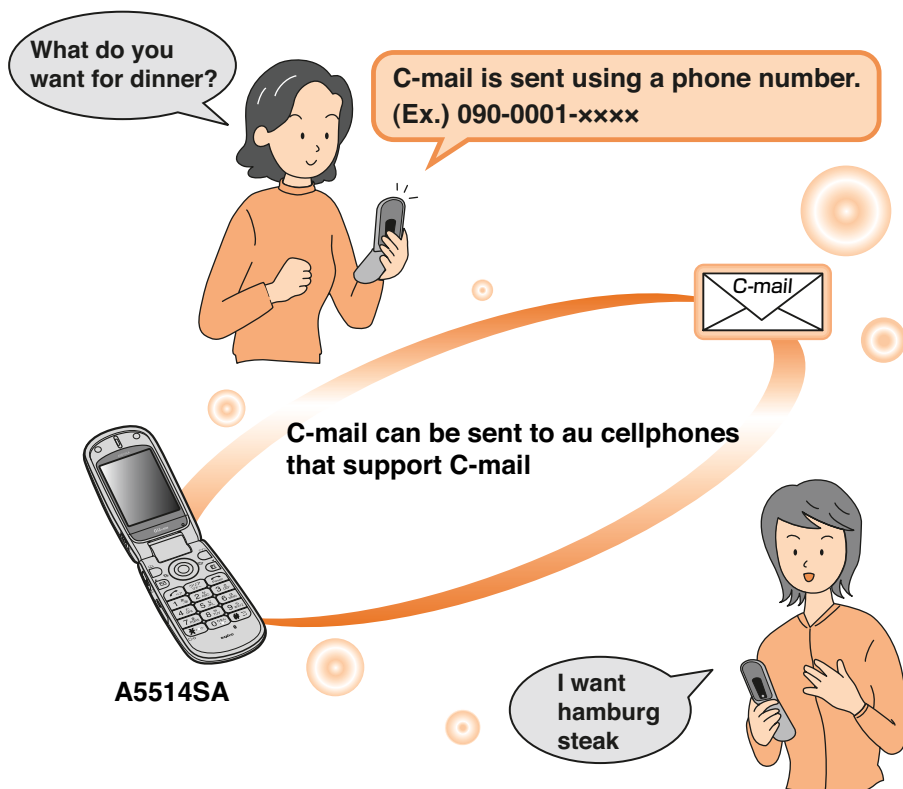
Change E-mail Address

You can also prevent arrival of junk mail by changing your E-mail address.

About C-mail

If you purchased your phone in Kanto or Chubu regions, you need not subscribe separately to use C-mail. If you purchased outside Kanto and Chubu regions, a separate subscription is required. Please contact au Customer Service Center or au shop if you did not subscribe at the time of purchase.

C-mail allows you to exchange mails of up to 50 full-sized (or 100 half-sized) characters with other au cellphones that support C-mail.

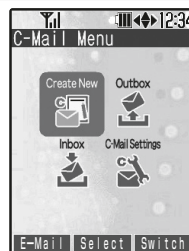
* C-mail Safe Block Function
  C-mail safe block function allows you to reject C-mails that include URL to access(http://□□□,https://□□□) or phone numbers in the C-mail body text. This function is valid by default.


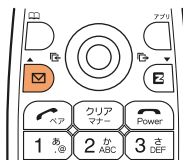
Mail

Creating and Sending a C-mail

1

Press [mail key] for more than one second in the standby screen.

C-Mail Menu is displayed.




2

Use [navigation key] to select "Create New" and press [center key] [Select].

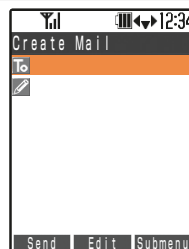
Create Mail screen is displayed.

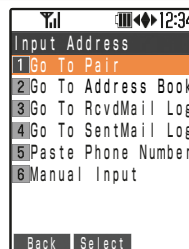
3

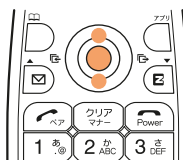
Use [navigation key] to select [To] and press [center key] [Edit].

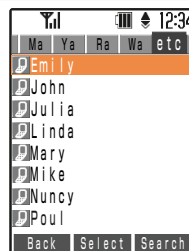
Input Address screen is displayed.

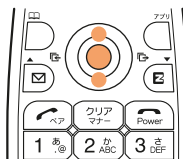
4

Use [navigation key] to select "Go To Address Book" and press [center key] [Select].


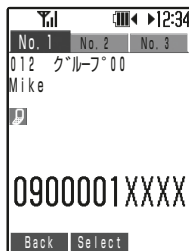


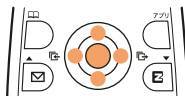


Address book list is displayed.




- Input Address screen also allows you to enter an address manually or select it from Received Mail Log or Sent Mail Log.

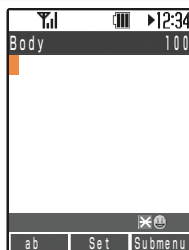
5 Use to select a recipient and press [Select].




- Go to step 7 when the entry has only one phone number.
- Use to select the number 1 to 3 when the entry has some phone numbers.

6 Press [Select].

7 Use to select and press [Edit].

Body text input screen is displayed.


8 Enter a body text and press [Set].

Body text is entered.

- See “Inputting Characters” (p.90) about the way of inputting characters.

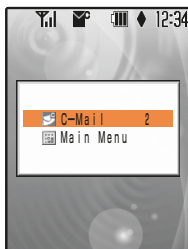
9 Press [Send].

Created mail is sent.

- After finished sending, the mail is saved in Outbox as sent mail.

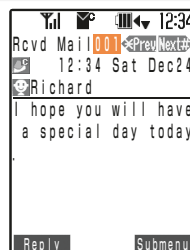
Mail

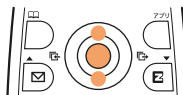
Reading a Received C-mail

When a C-mail is received, the standby screen notifies you.


(C-Mail) and the number of E-Mail are displayed.

1 **Use to select (C-Mail) and press .**

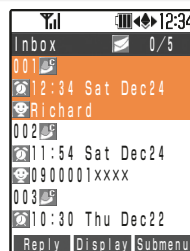
Received mail is displayed.




- The newest mail is displayed when you have some new mails. You can display a previous or next mail by pressing or .
- To reply to the sender, press [Reply].

Displaying a C-mail in Inbox

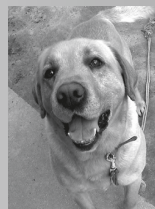
1 **From the standby screen, press for more than one second, use to select “Inbox”, and press [Select].**

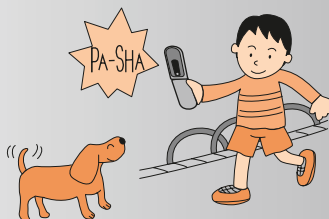
Inbox screen is displayed.


2 **Use to select a mail and press [Display].**

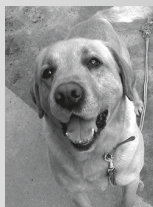
What You Can Do with the Camera

Take photos and movies

You can take photos and movies with this 1.31-megapixel camera.




Edit

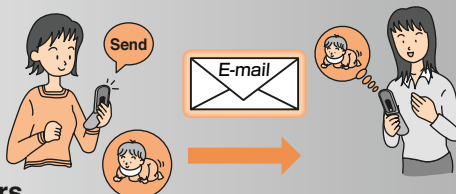
You can edit taken photos or movies as you like, by adding words or images on them.


Register

You can set taken photos as the standby screen, or register them to the Address Book to display when you receive incoming calls.

When a photo is registered to the Address Book

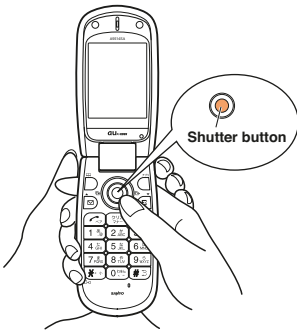
Send by E-mail

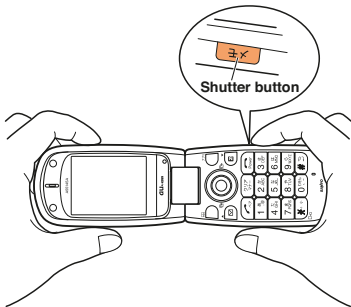
You can attach photos and movies of less than 500 KB to E-mail and send them to other cellphones or personal computers.


*** It may take more time than usual, depending on radio wave condition.**

How to Hold Your Cellphone When Shooting

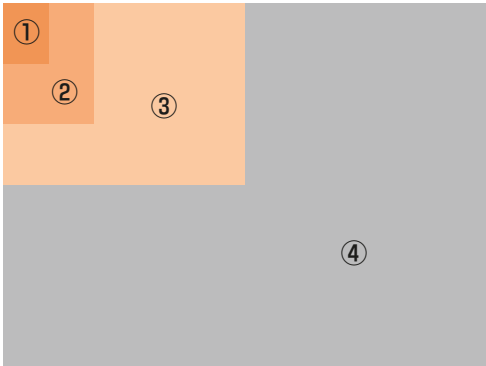
When you take photos or movies, put the subject inside the screen and hold the cellphone firmly with both hands to prevent a blur.

When shooting with a vertical screen


When shooting with a horizontal screen


About Data Size

You can select the mode for taking photo or recording movies. The following table shows the data size for each mode.

Mode for taking photo


Mode for recording movie

①	QQVGA size	120×160 dot size
②	QVGA size	240×320 dot size
③	VGA size	640×480 dot size
④	SXGA size	1280×960 dot size
⑤	Small size	96×80 dot size
⑥	Medium size	128×96 dot size
⑦	Large size	176×144 dot size

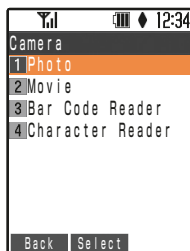
* ② is the same size as the main display of A5514SA.
* The default value is ② for the mode for taking photo, and ⑦ for the mode for recording movie.

Taking a Photo

1

From the standby screen, press ◉, use ✥ to select "Camera", and press ◉ [Select].

Camera functions are displayed.

2


Use ◌ to select "Photo" and press ◉ [Select].

- To switch to movie, press ⌂ [Movie].

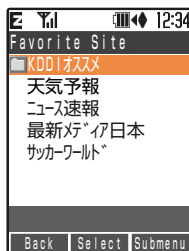
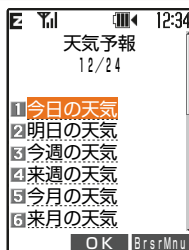
2 **Use [navigation key] to select “Favorite Site” and press [center key] [Select].**

Favorite site list is displayed.


3 **Use [navigation key] to select a site you want to view and press [center key] [Select].**

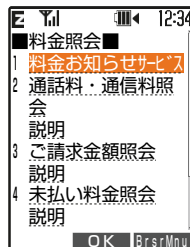
You are connected to the selected information site.


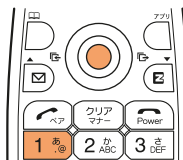
EZweb

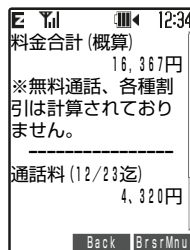
Inquiring Toll

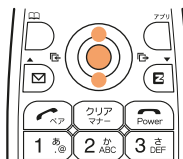
1

From the standby screen, press [center key] [1] [1] in turn.

2




Use [up/down key] to select a menu you want to confirm and press [center key] [OK].




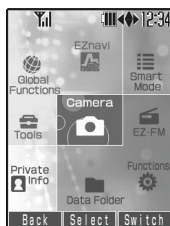
Information

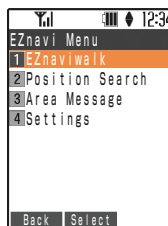
- The on-screen call or communication charge should be used only as a guide.

EZweb

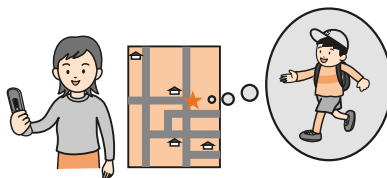
EZnavi (Subscription to EZweb required)

What You Can Do with EZnavi

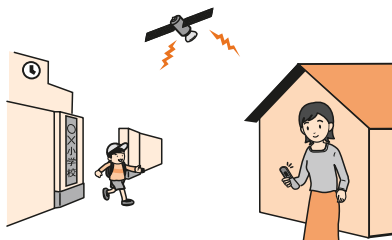
EZnavi is a useful service which provides you with position information (GPS information). You can use “EZ Navi Walk” which navigates you to a destination, “Position Search” which informs you of the current position of your kid, and “Area Message” which lets you know when your kid enters a (or goes outside) preset area.




“Position Search” allows you to confirm the current position of your kid

This service allows you to confirm with your A5514SA the current position of other au cellphones that support Position Search. “位置確認メール(Position Search Mail)” (charge-free) allows you to send a message to the other au cellphone to ask the position. “いつでも位置確認(Auto Position Search)” (charged) allows you to confirm the position of the other au cellphone without any operation on the other’s cellphone.


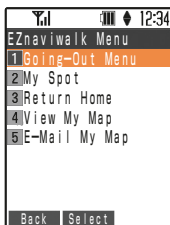
“Area Message” lets you know when your kid enters a (or goes outside) preset area

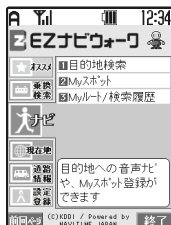
When your kid enters a (or goes outside) preset area during a specified period of time, a message with alarm is sent automatically from his/her cellphone to your cellphone.


EZnavi

“EZ Navi Walk” is useful when you go out

Various useful menus can be displayed when you go out.

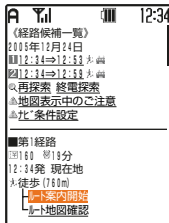
EZ Navi Walk Menu


Going-Out Menu


オススメ	The latest news and recommended information * “おためしナビ” provides a demo of voice navigation.
乗換検索	Searchable source of train transfer and timetable information
ナビ	Voice navigation to a destination and “My Spot” registration
現在地	Searchable source of maps, shops, and others of your current position
道路情報	Searchable source of real-time Japan-wide traffic Information
設定登録	Setups, membership registrations and others

My Spot

Just register the position of your home and favorite places (office, friends’ houses, shops, etc.) for easy navigation when you go there.

Return Home


Simply preset the position of your home for easy navigation when you go home. Also, it is useful for checking train transfers and estimated time of arrival.

View My Map

When you are in an unfamiliar place or when you lose your way, simply select “View My Map”. A map around your current position is displayed in real-time.

E-Mail My Map

You can send a map around your current position by E-mail to other person, who can use the map to navigate you.

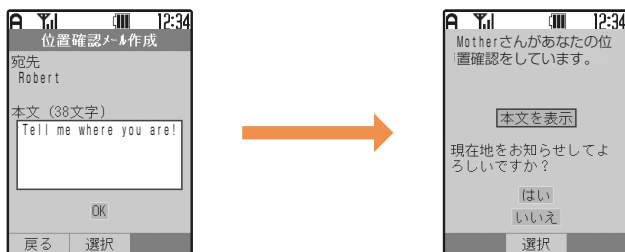
What You Can Do with Security Navi

What You Can Do with Position Search

You can easily confirm the current position of your kid in a map when he/she has not come home yet and you are worried about if he/she got lost. There are two kinds of Position Search: “位置確認メール(Position Search Mail)” and “いつでも位置確認(Auto Position Search)”.

Position Search Mail

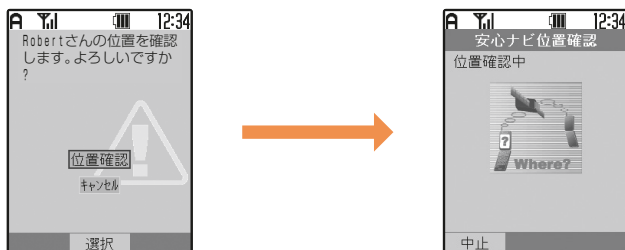
This function allows you to send a message to your kid, who can let you know his/her current position after confirming your message.

<Example> When a mother sends a message to her kid


Auto Position Search

This function lets you know the current position of your kid without any operation on his/her phone. It is recommended for kids who are not good at using cellphones.

<Example> When a mother sends a message to her kid

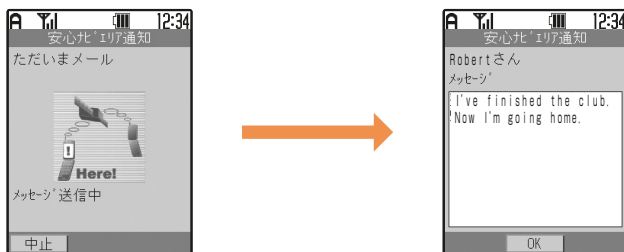
EZnavi


What You Can Do with Area Message

When your kid enters a (or goes outside) preset area during a specified period of time, a message with alarm is sent automatically from his/her cellphone to your cellphone.

Area Message

You can set your mind at ease without worrying about your kid when he/she is coming from after-school activities. When he/she enters a preset area, a message is sent automatically from his/her cellphone to your cellphone.

<Example> When a mother confirms an area where her kid is


Information

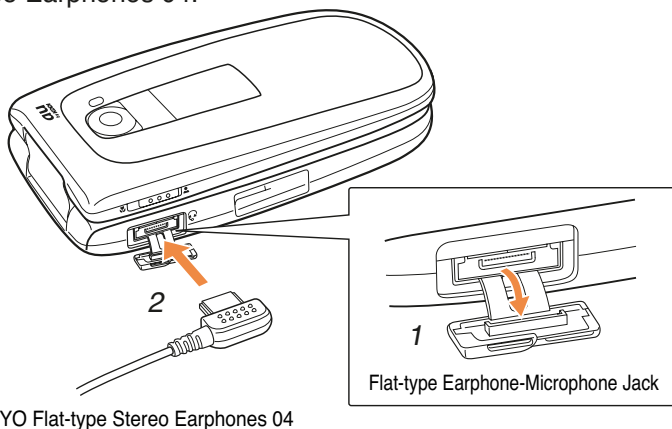
- "Security Navi" service can only be used between supported models.
- You may be charged packet communication fee to obtain a position information or display a map.
- It is necessary to set a password before using "Security Navi".
- Position Search cannot be performed when the other cellphone is under the following conditions: Out of service area/Setting reject function/Without the application/Operating/Not supported model.
- "Security Navi" cannot be used when you or the other person is suspending the use of C-mail.
- The display layout and contents show an example and may differ from the actual screen.
- Family discount for C-mail and packet communication fee does not apply to the message fee for this service.

EZ・FM (Subscription to EZweb required)

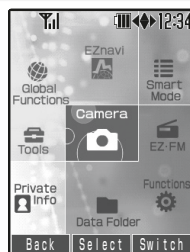
You can use the A5514SA as FM radio.

How to Use the EZ・FM

Connecting SANYO Flat-type Stereo Earphones 04

Open the cover of Flat-type Earphone-Microphone Jack and connect SANYO Flat-type Stereo Earphones 04.


Listening to the EZ・FM

1 **Press ◉ in the standby screen.**


2 **Use ◈ to select "EZ・FM", press ◉ [Select], use ◈ to select "確認(Confirm)", and press ◉.**

The EZ・FM screen is displayed.
The first time you use the EZ・FM, a screen to select an area is displayed. Select an area where you use.

How to Operate

● EZ・FM screen

Press [クリア/マナー], use [Navigation key] to select an item and press [Center key].

Connection to the EZ・FM

● Pressing it connects to the EZ・FM sites.

Frequency

● Pressing [Navigation key] tunes the frequency.
To tune automatically, press it for more than one second .

NOW ON AIR information

● Normally, a station name is displayed.

● Pressing [Center key] displays information such as an artist name and song name.
*Information is not displayed in some stations.

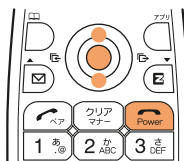
● Volume Adjustment

Pressing [Navigation key] adjusts the volume.

	Turn up the volume
	Turn down the volume
(More than 1 sec.)	Mute

Suspending/Ending the EZ・FM

Press [Power], use [Navigation key] to select "Suspend" or "End", and press [Center key] [Select].

Pressing "Suspend" turns the EZ・FM screen off, but you can continue listening to the EZ・FM.


Information

● Make sure that you do the initial setting before using the EZ・FM. See "Initial Setting for E-mail and EZweb" (p.20) about the initial setting.

● You can listen to the EZ・FM at no charge. You are charged packet communication fee to use services such as NOW ON AIR.

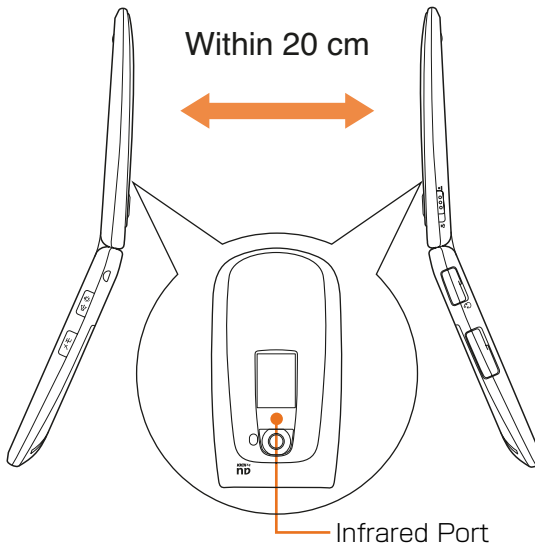
● The display layout and contents show an example and may differ from the actual screen.

Infrared Communication

About Infrared Communication

This function allows you to exchange data in the Address Book and Profile, or photos and movies in Data Folder among au cellphones that support the infrared communication function.

When Making Infrared Communication…

To make infrared communication, ensure that the receiver gets ready before the sender sends data. Approximate both cellphones within 20 cm, keep their infrared ports face to face, and do not move them.


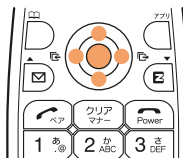
Data available for sending and receiving by infrared communication

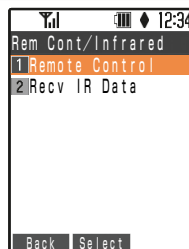
- Address Book
- Profile
- Schedule
- Task
- Journal
- Favorite Site
- Data in Data Folder (Photos, movies, and others)

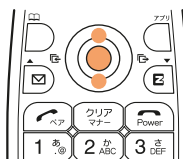
Using Infrared Communication

Receiving Data

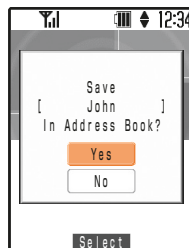
<Example> Receiving one data

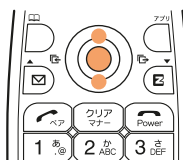
1 **From the standby screen, press ◉, use ◈ to select “Tools”, and press ◉ [Select].**


2 **Use ◈ to select “Rem Cont/Infrared” and press ◉ [Select].**


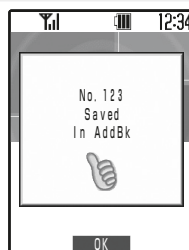


3 **Use ◈ to select “Recv IR Data” and press ◉ [Select].**

Data is received.


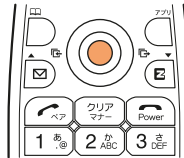


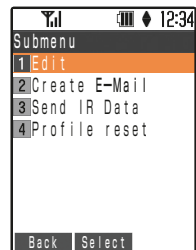
4 **After receiving data, use ◈ to select “Yes” and press ◉ [Select].**

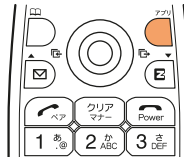
Data is registered.


Sending Data

<Example> Sending Profile Data

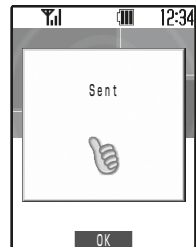
1 **After displaying Profile (See p.21), press [Detail].**


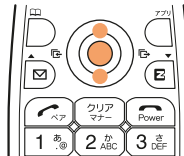
2 **Press [Submenu].**




3 **Use to select "Send IR Data" and press [Select].**

Data is sent.

Infrared Communication




Information

- Copyrighted data cannot be sent or received.
- Some data may not be sent or received depending on the other cellphone even if it supports the infrared communication function.
- Infrared communication may not be made in direct sunlight, under fluorescent light, or near other infrared equipment.
- You may be required to enter authentication password when sending and receiving. Authentication password is the 4-digit number which is arranged in advance between you and the person you communicate with.

Smart Mode

About Smart Mode

Smart Mode

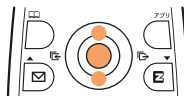
Recording a Movie

1

After the step 1 on page 88, use [navigation key] to select "Movie" and press [center key] [Select].


- To switch to photo, press [left soft key] [Photo].
- To change the movie size, press [right soft key] [Mode].

Press [center key] [Rec.].

Shutter sounds and starts recording. Recording is finished when the maximum record time has passed, or by pressing [center key] [Stop] while recording.

- To cancel recording, press [left soft key] or [クリア/マナー key].
- After finished recording, you can cancel the recorded movie by pressing [クリア/マナー key].
- To create an E-mail with the recorded movie attached, press [left soft key] [E-Mail].
- To confirm the recorded movie, press [right soft key] [Play].

3

Press [center key] [Save].

Recorded movie is saved.

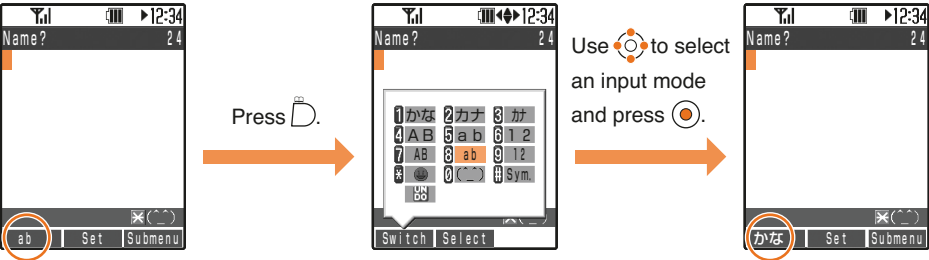
Inputting Characters

About Inputting Characters

It is necessary to input characters when saving an entry to the Address Book, or creating an E-mail, for instance. Kanji, Hiragana, Katakana, English, numbers, pictograms, emoticons, symbols, and phrases can be inputted.

Changing the Character Input Mode

Pressing [key] in a text input screen displays a list of character input mode.

Text input screen


かな	Kana/Kanji mode	カナ	Full-sized Katakana mode	ｶﾅ	Half-sized Katakana mode
ＡＢ	Full-sized and uppercase English mode	ａｂ	Full-sized and lowercase English mode	１２	Full-sized number mode
AB	Half-sized and uppercase English mode	ab	Half-sized and lowercase English mode	12	Half-sized number mode
[pictogram icon]	Pictograms mode	(^_^)	Emoticons mode	Sym.	Symbols mode
[UNDO icon]	Undo	—	—	Chara	Chara Moji mode

To change input mode…

- Use [key] to select an input mode and press [key] [Select].
- Press [key] [Switch] to select an input mode and press [key] [Select].
- Press a dial key that corresponds with a number in a list of input mode.

* Some characters cannot be inputted in a text input screen, depending on the function.

The current input mode is displayed at the lower left of the screen while inputting characters. The following shows the types and details of input mode.

	Kana/Kanji mode	Katakana mode	English mode		Number mode
			Uppercase	Lowercase	
Full-sized	かな	カナ	ＡＢ	ａｂ	１２
Half-sized	—	ｶﾅ	AB	ab	12

Key Assignment of Characters

Several characters are assigned to one key. Pressing a key repeatedly displays a character you want to input.

Key \ Input mode	Kana/Kanji (Full-sized)	Katakana (Full-sized/Half-sized)	English (Full-sized/Half-sized)	Number (Full-sized/Half-sized)
1 あ.@	あいうえおぁぃぅぇぉ1	アイウエオァィゥェォ1	. @ー＿／：～1	1
2 か ABC	かきくけこ2	カキクケコ2	a b c A B C 2	2
3 さ DEF	さしすせそ3	サシスセソ3	d e f D E F 3	3

	Switch between uppercase and lowercase			
	Switch to a list of pictograms, emoticons and symbols			
＃	Enter ↵ (Linefeed)			＃
	Display candidate words in reverse order while inputting characters (which are not set yet)			

* "～" can be inputted only when inputting full-sized characters. It changes to "~" when inputting half-sized characters.
* "ヮ" (lowercase character) can be inputted only when inputting full-sized characters.
* ␣ indicates a space.
* Inputting voiced sound symbol/semi-voiced sound symbol or switching uppercase/lowercase can be done by pressing ＊゛゜小 after inputting the character.
  (A list of pictograms, emoticons and symbols is displayed if you press it after the inputted character is set.)

  Ex.) つ → っ → づ → つ　　ハ → バ → パ → ハ　　a → A → a

How to Input Characters

Inputting Kana or Kanji

<Example> Inputting "岡垣" in a name input screen of the Address Book

1 **In a text input screen,**

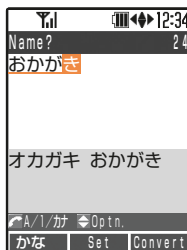
press [1] 5 times ·········「お」

press [2] once ············「か」

(makes a cursor move)

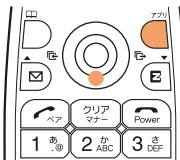
press [2] once ············「か」

press [✱] (voiced sound symbol) ···「が」

press [2] twice ············「き」


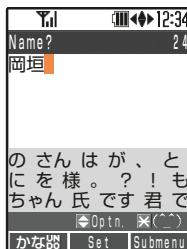
- You can input a character by pressing a key. Pressing a same key repeatedly changes characters in order. Pressing [#] changes characters in reverse order.
- To consecutively input characters assigned to a same key, move the cursor to the right.
- Candidate words are displayed when inputting a character. You can input by selecting a candidate word with [navigation key].
- When you press [ペア] before converting or setting an inputted character, you can change it to a character which may be displayed in number, English, or Katakana mode. However, a space is displayed when there is no corresponding character in number, English, or Katakana mode.

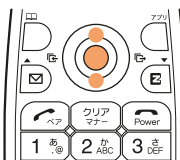
2 **Press [アプリ] [Convert].**

"おかがき" is converted to Kanji. Then pressing [navigation key] displays a list of candidate words.


3 **Use [navigation key] to select "岡垣" and press [center key] [Select].**

"岡垣" is inputted.

Inputting Characters




Inputting English Characters

<Example> Inputting "tottori" in an E-mail address input screen of the Address Book

1

In a text input screen,

press 8 **once** ············「t」

press 6 **3 times** ·········「o」

press 8 **once** ············「t」

(makes a cursor move)

press 8 **once** ············「t」

press 6 **3 times** ·········「o」

press 7 **3 times** ·········「r」

press 4 **3 times** ·········「i」

- To consecutively input characters assigned to a same key, move the cursor to the right.
- To input an E-mail address, you can input "@ezweb.ne.jp" by selecting it from phrases. See "Inputting Phrases" (p.94) about inputting phrases.

Characters available for E-mail Addresses

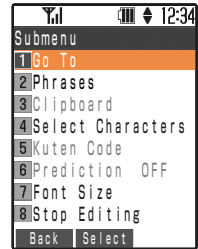
Key	Available characters								
1	.	@	-	_	/	:	~	1	
2 ABC	a	b	c	A	B	C	2		
3 DEF	d	e	f	D	E	F	3		
4 GHI	g	h	i	G	H	I	4		
5 JKL	j	k	l	J	K	L	5		
6 MNO	m	n	o	M	N	O	6		
7 PQRS	p	q	r	s	P	Q	R	S	7
8 TUV	t	u	v	T	U	V	8		
9 WXYZ	w	x	y	z	W	X	Y	Z	9
0	0	,	.	-	~	!	?		

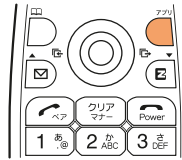
Characters in [shaded] cannot be used for your E-mail address when you change it.

Inputting Characters

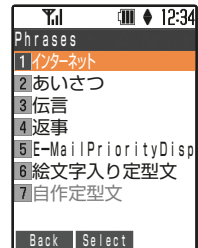
Inputting Phrases

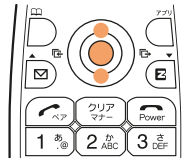
<Example> Inputting “@ezweb.ne.jp” in an E-mail address input screen

1 **Press [Submenu] in a text input screen.**




2 **Use to select “Phrases” and press [Select].**

Groups of phrases are displayed.




3 **Use to select “ｲﾝﾀｰﾈｯﾄ(Internet)” and press [Select].**

A list of phrases is displayed.

4 **Use to select “@ezweb.ne.jp” and press [Select].**

“@ezweb.ne.jp” is inputted.
Inputting Pictograms, Emoticons and Symbols

<Example> Inputting a pictogram

Press [key] in a text input screen.

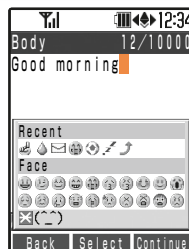
A list of input mode is displayed.

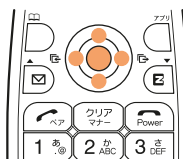
[icon] …Pictogram

(^_^) …Emoticon

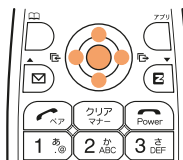
Sym. …Symbol

Use [key] to select [icon] and press [key] [Select].

A list of pictograms is displayed.




- To change categories, press [key] or [key].
- To switch between pictograms, emoticons and symbols, press [key].
- To input consecutively, press [key] [Continue].
Use [key] to select a pictogram and press [key] [Select].

The pictogram is inputted.


Information

- To delete one character, put the cursor on a character you want to delete and press [key]. To delete several characters, pressing [key] for more than one second deletes all characters which are at the right of the cursor, or deletes all characters when there is no character at the right of the cursor.

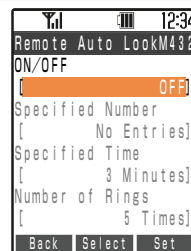
Before Losing...(Remote Auto Lock)

Set the operating condition of the remote auto lock in case that you lose the A5514SA. Receiving a specified number of calls from a specified number in a specified time locks automatically your A5514SA, which prevents other person's use.

Setting Remote Auto Lock

Press in turn [4] [3] [2] from the standby screen and enter lock code.

- Lock code is set to "1234" at the time of purchase.


Select an item and press [Select].

ON/OFF

Use to select "ON" and press [Select].

Specified Number

Press [New], enter a phone number and press [Set]. → [Back]

- To enter several phone numbers, select "Specified Number", press [Submenu] and press [New Enter].

Specified Time

Enter time and press [Select].

- 1 to 10 minutes can be set.

Number of Rings

Enter a number of rings and press [Select].

- 3 to 10 times can be set.

Press [Set].

Remote auto lock is set.

Locking Automatically by Remote Control

Make a call to your A5514SA in accordance with the operating condition you set.

Remote auto lock runs and the guidance is heard.

Information

- Even if the receiver answers when you make a call to set the remote auto lock, it is also counted as Number of Rings.
- Up to 3 phone numbers can be specified.
- Remote auto lock cannot be launched when your A5514SA is powered off or when it cannot receive radio waves.

Other Features

The A5514SA has other useful features which are not presented in this Basic Manual.

Standby Screen Settings

You can set photos taken by the camera and images obtained via the Internet or E-mail as the standby screen.

E-mail/C-mail Settings

You can set the E-mail/C-mail environment. Setting in advance allows you to use them comfortably.

Data Folder

Data obtained via the Internet or Email, photos and movies taken by the camera are saved in Data Folder, where you can save a variety of data by category.

EZ apps (BREW®)

You can download and use applications such as games and standby screens. Also, you can read QR code or character by Bar Code Reader or Character Reader, which allows you to access information sites or look up dictionary.

Speaker-Phone Function

You can call without holding the A5514SA in your hand.

Journal

You can create simple journal with images.

Pocket Money Log

You can create pocket money log of the current and previous month.

Dictionary

Dictionaries such as Japanese-English and English-Japanese are included, which may be useful in foreign countries.
